# STREETWISE ESSENTIALS

To a graffiti artist, a clean flat surface is a canvas to express their feelings.

To the public, this vandalistic expression is often seen as intrusive, offensive, threatening and costly. Graffiti can affect a person's perception of a community, it devalues property and can influence the community's wellbeing by deterring visitors. Graffiti has an environmental, social and economical impact on the community.

Millions of dollars are spent each year by State and Federal Governments, local councils, businesses and property owners to reverse the damage caused by graffiti vandalism. Property owners know that swift action in the removal of graffiti is required to avoid its proliferation.

The expeditious removal of graffiti is recommended as evidence shows that the sooner graffiti is removed from an area, the less likely it will recur. Whereas, the non removal of graffiti seems to attract more "artistic expressions".

With this in mind, Dulux Powder Coatings has formulated Armourspray® AG, an Anti Graffiti powder coat, that offers exceptional properties in the resistance to abrasion damage and allows the rapid removal of graffiti from aerosol spray cans and permanent markers.

Armourspray® AG is an environmentally friendly powder coating, containing no solvents or dangerous fumes. Armourspray® AG is suitable for both interior and exterior environments, and can be used on various substrates including hot dipped galvanised steel (over Dulux E-Prime™, in severe environments), steel and aluminium.

Armourspray® AG is recommended wherever graffiti could proliferate; such as public transport equipment, street furniture, signs, telephone boxes, roller shutter doors, playground equipment, etc.

Armourspray® AG is available in an array of stock colours and in made to order project colours.

Product Performance	
Weather	Good external durability
Heat	Excellent resistance to 120°C
Flexibility	Pass 80 inch/lb
Pencil Hardness	Min 4H
Water Soak	No failure after 1000 hours (32°C)
Salt Spray	< 3 mm adhesion loss at scribe after 250 hours on pre-treated steel panels (ASTM B117)
Humidity	Excellent resistance to 38°C / 100% humidity for 1000 hours on pre-treated aluminium
Cross Hatch Adhesion	No removal
Ethyl Acetate	Resistant
Ethanol	Resistant
White Spirits	Resistant
Xylol	Resistant
10% HCL Acid	No effect (100 hours)
Gloss Level	70 – 90% at 60°

### Graffiti Removal Procedure

Armourspray® AG has excellent chemical resistance, which means most paint materials used for graffiti, can be readily removed without the need for harsh and hazardous solvents. Avoid leaving graffiti in place for long durations as the graffiti will harden over time and make removal more difficult.

#### Steps for removal

1. Use warm soapy water and some light rubbing or friction.
2. Some graffiti can be removed using an alcohol or acetone.
3. Where a strong paint has been used as graffiti and the previous steps are unsatisfactory, Dulux Graffiti Eraser\* should be used.

\*Available from Dulux Trade Centres

## STANDARD COLOURS

The following colours, including Armourspray® AG - Ghetto™ Clear (910 81797) are available as stock .

	<b>Ghetto™ White</b> 910 19143		<b>Streetwise™ Silver</b> 910 70490		<b>Streetwise™ Maroon</b> 910 4021G
	<b>Streetwise™ Cream</b> 910 2017G		<b>Velocity® Storm</b> 910 5022G		<b>Velocity® Green</b> 910 33709
	<b>Streetwise™ Yellow</b> 910 2018G		<b>Velocity® Charcoal</b> 910 9024G		<b>Ghetto™ Black Satin</b> 910 9024S

## ARMOURSPRAY® AG

## PROJECT COLOURS

The following colours are examples of made to order finishes.

	<b>Streetwise™ Ute</b> 910 84561		<b>Velocity® Smoke</b> 910 84777		<b>Streetwise™ Electric®</b> 910 5023G
	<b>Velocity® Drag</b> 910 3010G		<b>Velocity® Machine</b> 910 81882		<b>Streetwise™ Blues</b> 910 5024G
	<b>Velocity® Mud</b> 910 8031G		<b>Streetwise™ Shelter</b> 910 88195		<b>Streetwise™ Revenge</b> 910 4022G

The colours represented in this brochure are indicative only. They are as close to the actual product colours as modern printing techniques allows.
